

## Educators

Meet Carol and Janet, the educators on the “Eye treatment course”. Both felt they were able to deliver the course successfully to the students, and make an impact of the early stages in their development. They built a great rapport with all the girls on the course and felt that each person had their own story and journey. All students did amazing on the course. One student applied for the course as she thought it was an amazing opportunity which would help her future career. She told us of her struggle with always doubting herself however by the end of the course she felt this getting better each day. Both educators said how well this student done and since finishing the course has gone on to buy all products and materials needed to treat clients and has been building her clientele up.

## EMPOWERING FEMALES IN THE COMMUNITY

### EMPOWERING FEMALES IN THE COMMUNITY

Our student who underwent the Eye Treatment training with Carol & Janet from Professional Salon Training. She was able to partake in the training with funding from the Community Wellbeing and Education CIC. She told us about how she doubts herself and this holds her back. Lets here how she got on...

The student excelled. She worked so hard and was keen to learn. She asked questions and was very good at taking notes too. Looking forward to seeing her business grow.
